SPRING IS HERE!

THE MAGIC OF MAGNESIUM

Magnesium is an essential mineral that supports numerous bodily functions, from muscle & nerve function to energy production & bone health.

But did you know the way you take magnesium can influence how effectively your body absorbs & uses it?

ORAL MAGNESIUM

- Wide variety of forms : tablets, capsules, powders.
- Lower absorption due to contact with the digestive tract
- Potential side effects including diarrhoea & stomach cramps.

TOPICAL MAGNESIUM

- Quick absorption via the skin, bypassing the digestive tract giving your body more of the magnesium it needs.
- Gentle on the stomach & no digestive side effects.
- Targeted relief for cramping, tension & other ailments.
- Can be used as a daily supplement, as well as breakthrough relief for things like cramps, headaches and joint pain .

DID YOU KNOW? - if you experience a tingling sensation after applying magnesium, it could be a sign that you are deficient (and that the product is actually working to remedy it).
