WELCOME TO WINTER

SHOULD YOU CHANGE YOUR SKINCARE WITH THE SEASONS?

Coming into the colder weather you might begin to feel some changes happening within the skin. Why is that you ask?

The skin can become drier and more sensitive during the colder months due to the low humidity in both the wintry air outdoors and inside heated homes. This affects our skin's hydration and can result in the skin feeling tight, flakey & inflamed.

It is completely normal for your skin to change with the season so sometimes your skincare needs to too.

OUR TIPS:

- Limit having hot showers
- Switch to a richer moisturiser & cleanser
- Exfoliate to remove dry flakey build up to smooth out any texture
- Book in for regular facials to deeply nourish & hydrate the skin as well as remove dead skin cell build up

Honourable mention to Hydrating Masque, an easy mask to include into your routine once or twice a week to increase water levels in the skin, plump & soothe the skin.

OUR WINTER SKIN SAVIOUR: DMK'S Hydroloc is designed to prevent the skin from drying out as well as protect it from environmental damage. The safflower oil provides a rich mixture of vitamins to lock in moisture, perfect for skin exposed to harsh environments, artificial heating/ cooling, genetically dry or flaky skin, sunburn and burns. Hydroloc transforms the skin from dry and flaky to velvety and lush. **USE:** layer over top of your regular moisturiser

CHAT TO YOUR THERAPIST ABOUT IT NEXT TIME YOU'RE IN THE SALON

INTRODUCING YOUR SKIN'S NEW BEST FRIEND!

Tight & Bright is a non-invasive IPL skin rejuvenation protocol designed to improve any discolouration or pigmentation & the skin's firmness.

Our "Bright" step of the treatment helps break down superficial pigmentation and even out skin tone. The "Tight" step gently heats the dermis to stimulate collagen and elastin production, instantly improving firmness and texture & over time, gradually tightening the skin and smoothing the appearance of fine lines & wrinkles. We can also then target any broken capillaries, diffused redness & even rosacea.

ARE YOU LOOKING FOR LASER HAIR REDUCTION TREATMENTS?

Designed with powerful, cutting-edge 808nm Diode Laser PowerMotion™ technology, the Alpha system provides high-speed energy delivery, allowing practitioners to achieve outstanding hair reduction results with fewer passes and enhanced client comfort.

The system's sophisticated cooling technology helps protect the skin throughout treatment, making sessions more comfortable while allowing for effective energy delivery to the hair follicle.

The 808nm wavelength specifically targets the melanin within the hair follicle, helping to achieve long-term hair reduction while minimizing discomfort and downtime.

COSMETIC NURSE JAMES IS BACK!!

Our Cosmetic Nurse James will be back at Amour on Monday 15th, Tuesday 16th and Wednesday 17th of June. If you've been thinking about Botox or Dermal Filler Injections James is the man to see!

With over 16 years in the industry, James excels at creating a natural result and can give injectables to your lips, forehead, eyes, neck & frown lines. He can also relieve excessive sweating, migraines or jaw clenching. With his extensive knowledge & experience, he's the only person we'd trust with our beautiful clients faces.

He also offers free consultations, if you are just after a chat or some information. James has very limited appointments available, so if it's something you've been thinking about come in & see what James recommends.
