DOES YOUR SKIN NEED A CLEAN UP?

Our Tight & Bright Facial is a non-invasive IPL skin rejuvenation protocol designed to improve the skin's texture and firmness and any discolouration or pigmentation it has.

Our "Bright" step of the treatment helps break down superficial pigmentation and evens out skin tone.

The "Tight" step gently warms the dermis to stimulate collagen and elastin production, instantly improving firmness and texture & over time, gradually tightening the skin and smoothing the appearance of fine lines & wrinkles.

Last but absolutely not least, we can also then target any broken capillaries, diffused redness & even rosacea!

Come in for a FREE Consultation & Test Patch to try it out for yourself & BOOK IN to save with our exclusive offer!

WHAT OUR CLIENTS HAVE BEEN SAYING

"Wow! One of my new favourite treatments. I immediately noticed the texture improvement in my skin, my pores were basically non-existent. My partner asked if I'd had botox my skin was so flawless. It was amazing watching my pigmentation spots fall off & my complexion even out. It even helped my acne spots. I'm obsessed!"

K.M

"I was not expecting this treatment to be so good. I have had IPL & Laser facials done before but nothing this effective & comfortable. You feel warmth through the treatment & afterwards can visibly see & feel your skin tighten & brighten. Can't wait to have my second!"

GET TO KNOW ASH'S FAVES!

Favourite Treatment : Lash Lift & Tint

Why? - It gives you an instant result & wow factor from your natural lashes. A very low-maintenance treatment that is gentle on your lashes but still gives you long-lasting results! The tint is a bonus that makes the lashes appear thicker & darker.

Favourite Product : DMK's Seba-E Nourishing Oil

Why? - It's such a nice hydrating & lightweight oil that doesn't clog the pores, as it imitates your skin's identical lipids and natural oils to keep the skin healthy & looking fresh and glowy.

YOUR SPRING SKIN NEEDS....

DMK's gentle, non-abrasive exfoliator, Micro Peel.

Micro Peel works to lift and clear away debris and dead skin cells without disrupting or breaking down our skin's barrier.

If you're using a physical exfoliator with any form of bead or scrub, you are breaking down your skin's barrier!

Think of it as if you were to sandpaper a piece of paper (the paper being your skin). By breaking down your skin's barrier, you are allowing the hydration to evaporate out of the skin, bacteria to get in easier & the skin can become inflamed and angry.

Sound like your skin? Or just wanting a good exfoliator that will actually leave your skin feeling rebalanced, refreshed, and smooth?

Try our DMK Micro Peel

USE: Apply a thin layer to cleansed skin and leave for three to five minutes.

"I swear by Micro Peel! I only have to use it once a week & my skin remains super smooth and clear. It doesn't leave my skin feeling tight or dry like a lot of other exfoliators I've used before either. The bottle lasts forever as well!"
