

# Amour Beauty March Newsletter

Wow it's March already and that means its Autumn!!

Adjusting to an autumn skin care routine will help repair any summer damage and prepare your skin for winter.

As autumn air becomes drier, your skin may need a heavier moisturiser.

Heavier creams provide a stronger oily barrier, which means they both reduce water loss from the outer layer of skin and provide hydration to this layer of skin at the same time.

Adding serums and night creams to your routine will help to combat any dehydration and prep your skin for winter's onslaught.

Regular exfoliation will help to remove the build-up of dead skin cells and allow for treatment creams to penetrate and work more effectively.

Come in and talk to the girls about an Autumn skincare plan to rehydrate, exfoliate and moisturise your precious skin.

## ASHLEE'S FAVOURITE PRODUCT - CLARIFY COSMEDIX

I absolutely LOVE this product!!

My blemishes and acne have definitely gone away since I started using this skincare product. It contains Salicylic Acid which eats up the bacteria that creates your blemishes and acne. I use this product morning and night and also sometimes dab it on singular blemishes for a quick fix.

I definitely swear by this product!!
