NEW PRODUCTS

The Soap Bar produces boutique style handmade soaps and natural body care products, which look too good to use!!

Pre-packaged boxed soap sets are available, so you can find the perfect gift for someone special or a decadent treat for yourself.

THE SOAP BAR

Swirled with natural clays and oxides, topped with botanicals and herbs, the soaps are designed to engage all your senses, so that bathing can be fun and good for you, leaving you to enjoy softer, revitalised and younger looking skin.

The handmade soap is made of vegetable oils and butters that are rich in antioxidants, vitamins and nutrients that are essential to healthy skin in both children and adults.

Designed to enhance the bathing experience by utilising aromatherapy oils and skin loving nutrients the benefit to the customer is softer, revitalised and younger looking skin.

The Soap Bar take pride in their ingredients and are excited to share the gorgeous handmade soaps with you!

FACIALS are an important part of your skin care program, to ensure the health of your skin and keep your complexion looking fresh and hydrated. Facials provide deep cleansing to your skin and remove blockage and bacteria in the skin pores which diminishes acne. Facial exfoliation effectively removes dead skin cells and promotes healthy cell turnover and the facial serums are able to get deep into the skin to stimulate collagen production. A regular Facial ensures better blood circulation and hydration so your skin appears plump, refreshed and glowing.

MASSAGES are more than just a luxury, they are a necessity! Massage can help with circulatory issues, joint and muscle pain, balancing emotions and anxiety, insomnia and much more. Massage helps both the mind and body to relax, which in turn helps with relieving muscle tension and stress. Massage gets the blood flowing which delivers oxygen and nutrients and removes toxins, leaving our bodies feeling cleansed and refreshed.
