MARCH NEWSLETTER

Wow it's already March and that means it's Autumn and also Easter!!

Yay, who doesn't love it when the Easter Bunny drops chocolate eggs everywhere!!

In Autumn your skin care routine may need adjusting, to help repair any summer damage and prepare your skin for winter. A heavier moisturiser will provide a stronger barrier, which means it both reduces water loss from the outer layer of skin and provides hydration to this layer of skin at the same time. Also regular exfoliation will help to remove the build-up of dead skin cells and allow for treatment creams to penetrate and work more effectively.

If you are not already using our fabulous cosmeceutical products, now would be a great time to change over and use our skincare products that actually benefit your skin.

We can customize an individual skincare plan to benefit your skin concerns, you are never too young or old to begin a beneficial skin treatment plan.

Come in and talk to the girls about our amazing skincare treatments and home care products, which go hand in hand together to make your skin healthy, glowing and fresh.

BRAND NEW PRODUCT

ASPECT EXFOLIATING CLEANSER

Aspect's new Exfoliating Cleanser will revitalise dull skin, revealing a radiant complexion. This foaming cleanser works by gently exfoliating dead skin cells, removing impurities and refining and decongesting skin. Suitable for oily and problem skin, the Lactic and Salicylic Acids, Aloe Vera and Canadian Willowherb are the perfect cocktail of actives that will leave your skin smooth, clean and glowing.

With antioxidant protection and soothing and calming benefits, your skin will feel refreshed and rejuvenated.

DID YOU KNOW – SKIN FACTS???

Genetics – are only responsible for **20%** of how your skin will age. The lifestyle choices you make today will affect the way your skin looks and ages into the future. Lifestyle choices include sun exposure, smoking, diet, stress, quality skincare and salon treatments.

Differences between cosmetics and cosmeceuticals:

Cosmetics – bought in a chemist, supermarket, department store like Myer. They have a small amount of active ingredients, however not enough to be effective or penetrate the skin. They feel good and smell good but have no real benefits.

Cosmeceuticals – bought in a beauty salon and contain a high percentage of active ingredients, which reduce the effects of ageing, improve the condition of the skin and treat most skin concerns.

Price - Cosmetics are sometimes dearer than cosmeceuticals, as you are paying for the big fancy well-known brands. The price of our cleansers start at \$19.95 and our moisturisers start at \$29.95.

De-age - Great skincare and in-salon treatments can achieve outcomes and results, which were not possible 15- 20 years ago. New technology in both ingredients and equipment literally de-age and treat, whereas before, the best that skincare could do was slow down the signs of ageing by keeping it hydrated and protected.

Changing lives - Therapists are now able to clear acne, or take years off the face of a mature or skin damaged client, who's feeling and looking old, thereby boosting their self-esteem and confidence. Our aim is getting great skin outcomes, which result in major changes in our client's lives. We can combine a complete skin treatment program with a skincare homecare regime, to provide our clients with effective results.

CUSTOMISED JUST FOR YOU!! We analyse, consult and discuss a complete skin plan specialised exclusively just for you. Don't guess what is right for your skin, come and see the professionals! Book in for a Dermal Therapist professional skin consultation today!!

A TROPICAL ESCAPE AWAITS...

We have a fabulous March special on our most popular Pure Fiji Sugar Glow Massage. Restore, Relax and Unwind as your skin is treated to a sugar rub exfoliating treatment using our indulgent Pure Fiji exotic body range products.

Be transported to a tropical island paradise, while your body soaks up the relaxation, totally restoring your mind, body and soul to a happy, healthy and stress-free place. Massages help with joint and muscle pain, emotions and anxiety, insomnia and circulatory issues. Massages get the blood flowing, which delivers oxygen and nutrients and removes toxins, leaving our bodies feeling cleansed and refreshed.
