

WINTER SKIN FITNESS

Winter is here and so are the cold and frosty mornings!

As the temperature drops, heaters blast hot air and the wind whips up, the battle for healthy skin begins. Dry air takes away the thin layer of oil that traps moisture in the skin which results in severe dry skin. June is an ideal time to begin a skin fitness program which includes regular skin treatments together with homecare cosmeceutical skin care products, for optimum results and skin health.

Check out our Winter Skin Fitness Programs Now Available and don't forget we offer BeautyPay easy weekly payment plans!!

Did you know we have a virtual treatment room, where you can speak to our Professional Dermal Therapist anytime, about your skin concerns!!

Just go to our website, click on the "Send Us A Message" Tab on the bottom of the screen. Or you can Facebook Message or call the Amour team with any skin concerns you have!!

Winter is a great time to treat yourself and come in from the cold.

Amour offers fabulous Hot Stone Massages, Facials and Skin Treatments.

Everything you could want and more!

Probiotics Important for Skin Health

Your skin naturally plays host for many good bacteria, but external factors (like pollution) and harsh formulas in your skin care routine can kill off these good bacteria.

Topical Probiotics benefit every single skin type and a multitude of skin conditions because they modulate the immune response, calm the skin and also quickly control inflammation and redness for those with sensitive skin, psoriasis, eczema and rosacea.

Studies show that strains of probiotics are effective acne fighters, the big plus being that probiotics actually hydrate skin, while most acne solutions try to knock out breakouts by turning your face into the Sahara (eg benzoyl peroxide).

On top of this, they help skin seal in moisture, smoothing out any fine lines and wrinkles. Probiotics are gentle and effective multitaskers, making them the closest thing to a cure-all.

ASPECT PROBIOTIC SLEEP MASK

A treatment mask designed to provide rapid relief to dry and dehydrated complexions, or skins in need of extra nutrition. Aspect Probiotic Sleep Mask encourages cell renewal while also delivering superior hydration. It contains aloe vera and sodium hyaluronate for intense moisturisation, argan oil for its ability to condition the skin and acai berry for its potent antioxidant properties.

We are offering 10% off this fabulous Sleep Mask for June.
