NEW TEETH WHITENING TREATMENT

- Professional in-salon Teeth Whitening
- Instant Results 6-12 Shades Whiter
- Non-Peroxide Formula No Pain or Sensitivity

Our new Pearly Smile teeth whitening system uses a special gel which is painted onto the teeth and together with an LED light penetrates the pores of the tooth enamel to release and dissolve the molecules that cause the staining and discolourisation of the teeth.

You will not experience any tooth sensitivity or pain as our whitening gels are peroxide free and our LED light technology makes the process safer, easier and faster than any other whitening system available.

Our Express 20 minute single treatment (\$99) will whiten your teeth by 6-8 shades instantly or our Deluxe 40 minute double treatment (\$179) will lighten by 8-12 shades.

PlasmaLift is the only cosmetic treatment to use
plasma energy to eliminate excess skin, erase
your wrinkles and lift your eyelids INSTANTLY!

There is some downtime with small brown dots visible
for a few days, however, this treatment has INSTANT
results and only requires one treatment, depending
on the severity of the skin concern.

**THIS IS THE ULTIMATE EYELID LIFT TREATMENT!
NO NEEDLES, NO SURGERY!**

PlasmaLift will refresh tired hooded eyes in a flash and
lift your brows without the need for surgery!

This treatment is also fabulous to lift your top lip to
create a beautiful pout. When we age our lips tend to
