CLIENT TESTIMONIAL

"My get-up-and-go had got-up-and-gone before I started going to Amour.

Ash and Erin gave it back to me with the most amazing DMK Enzyme Facials which literally were a game-changer for my skin.

They are both incredibly passionate about what they do and make you feel like you are one of their regulars (even if your appointments are sometimes few and far between because of the craziness of life!)

I honestly can't wait to work my way through their extensive list of services as I know I will receive each and every one with a smile :)"

What a Difference!!

Look at this non-surgical Eyelid Lift after ONLY ONE PlasmaLift treatment!

Get rid of those tired hooded eyes and refresh your look without the need for surgery or needles!

The first photo is before the treatment and the second photo is immediately after the treatment. You can see the small brown dots that are on the skin immediately after and last for about 3-5 days.

The last photo was taken a week later!

Drooping eyelids are GONE with just 1 treatment!

You can see that the brow has been lifted, the excess skin on the hooded eyelid is gone and the eyeball is now fully open!! These results will continue to improve over the next few months.
