## HAIR REMOVAL OPTIONS FOR SPRING

**Have you tried Body Sugaring yet?  
You will never go back to waxing after  
trying sugaring!!!**

Our clients are LOVING the results they are getting from sugaring for hair removal!

LESS pain, LESS sensitivity,  
LESS ingrown hairs and LESS regrowth!

Sugaring uses natural ingredients & is gentler than waxing, meaning less irritation to the skin.

Sugaring removes shorter hairs, so the optimal cycle for sugaring is every 3 weeks.

It also reduces ingrown hairs, leaving your skin silky smooth & exfoliated in and time fewer hairs will grow back & the hair will be finer.

We know you will love sugaring, so treat yourself to more than one body area such as legs, arms, bikini, brazilian and underarms.

**IPL Permanent Hair Reduction is quick & easy. Are you sick of shaving or over the pain of waxing??**

Our SHR IPL technology is a revolutionary new method for permanent hair removal which is virtually painfree and has no side effects.

The unique technology and techniques used in SHR IPL makes most hair and skin types suitable for this treatment.

In comparison to other slightly dated laser and IPL methods, SHR Laser provides faster, safer and pain free hair removal treatments for clients on any area of the face and body and can be performed at all times of the year including summer.

This treatment usually requires 6 treatments at monthly intervals.
