nourish the brow hair & stimulate hair growth.

Brows everyday for ONLY \$36!**

## NAKED TAN SPRAY TAN

**Are you sick of putting on tans at home ending up with a horrible, uneven, orange result?**

Our Naked Tan spray tans are easy and quick, they dry within minutes and most importantly are a gorgeous natural tanned colour.

We will make you feel comfortable and we welcome all body shapes and sizes.

You can wear as little or as much as you like during the tan and you will instantly feel skinnier and more toned, giving you a fabulous feeling of self-confidence.

Our tans can be washed of after only 20 minutes or 2 hours and come in different colours to suit any body tone.

Perfect for special events, holidays, a trip the beach or when you just want to get your glow on!

## THE DIFFERENCE BETWEEN EYE CREAMS AND MOISTURISERS

Did you know that using moisturisers under your eyes is not effective as the skin under your eye is extremely thin and cannot absorb the thickness of a moisturiser?

A special Eye Cream differs from a facial moisturiser by:

Being lightweight

Absorbing easily and quickly to minimise skin pulling during application

Containing little or no fragrance

Formulated especially for sensitive skin.

## ARE YOU A BRIDE-TO-BE?

Are you a Beautiful Bride-To-Be who wants their best glowing, healthy skin for your special Wedding Day?

We would love to help you to achieve gorgeous, radiant skin so you are confident and feel amazing for your special day and so your photos will be stunning!

We offer professional skin consultations which can tell us exactly what your skin requires to be healthy and glowing and we can customise the best treatment and product plan especially for you.

Ideally a skin treatment plan would start 6-12 months prior to your wedding, so now is the perfect time to start!

## DMK EYE TONE

Our fabulous DMK Eye Tone Lotion works on the principle of encouraging the skin to function as it did when it was younger.

Eye Tone plumps up the skin and rebuilds the fragile skin around the eye area by promoting normal cellular proliferation and strengthening fragile capillaries to reduce dark circles.

It also revises wrinkles and fine lines, dark circles and puffy bags while hydrating and softening the skin blood supply to the wounded area.
