OUR FAVOURITE PRODUCT THIS MONTH IS...

DMK'S hero Vitamin A product, Revitosin.

Revitosin works to regulate, rebuild and strengthen the skin, bringing the skin back into balance. A powerful blend of Vitamin A helps to regulate cell proliferation, the flow of oil, fight free radicals and encourages RNA that prevents cell degeneration. It is also a great home product to support the skin between professional in-salon treatments. A very versatile formulation, Revitosin is suitable for acne, pigmentation, ageing, scarring and stretch marks.

"I started using the Revitosin a month ago & have noticed a huge difference in my skin already! It looks so much smoother & is actually glowing. I've had so many compliments! Another DMK product that I can't live without now!"
